

## **Trenchard Aviation Group partners with Aviation American Gin at Hamburg AIX 2020**

*Press Release – 2<sup>nd</sup> March 2020*

Trenchard Aviation Group will be hosting two gin receptions at AIX 2020 in partnership with Aviation Gin.

Each of the Group's four complementary businesses – Airbase, Aero Technics, Reheat and Servcorp – will be represented at AIX and will be showcasing a collective offer that spans aircraft cabin component design, manufacture, repair and on-wing maintenance.

Aviation Gin was first produced in Portland, Oregon, by founders Christian Krogstad and Ryan Magarian in 2006. Produced today by House Spirits Distillery, Aviation's unique taste comes from the seven natural botanicals used in its production - juniper, lavender, sweet and bitter orange peel, cardamom, coriander, Indian sarsaparilla, and anise seed.

Pot-distilled twice and bottled at 42% alcohol by volume, Aviation is distributed nationwide in the United States and in 40 other countries. Named after the classic cocktail created in the early 20<sup>th</sup> century, Aviation is distributed in a flask-shaped bottle which, with its black label and silver cap, is reminiscent of the Art Deco period.

**Mark Faulkner**, CEO of Trenchard Aviation Group, commented:

*"We're delighted to be partnering with Aviation Gin to host two gin receptions at AIX 2020. We are looking forward to welcoming a wide range of clients, colleagues and aviation interiors industry friends from around the world"*

**Ryan Reynolds**, Owner, Aviation American Gin, added:

*"I've tried every gin on the planet and Aviation is, hands down, the best. Also, I don't recommend trying every gin on the planet. Stick with this one."*

The Aviation Gin receptions will take place between 3.30pm and 5pm on the 31<sup>st</sup> March and 1<sup>st</sup> April, in Hall B6, Stand 6F74.
